

WITHOUT HUEBSCH® OPT,
YOU'RE MISSING OUT
ON LOADS OF EFFICIENCY.

OVER-DRY PREVENTION TECHNOLOGY.

OPTIMIZE ENERGY EFFICIENCY. MAXIMIZE UTILITY SAVINGS.

As the industry leader in efficiency, Huebsch® has been delivering game-changing technologies since 1907. From the development of our renowned line of tumble dryers to our advanced features that minimize operating costs, we have helped on-premises laundries improve the efficiency of their facilities for more than a decade. We're known for delivering equipment that reduces utility costs and energy use. And we're always looking for ways to improve, which is why we're continuously at the forefront of the commercial laundry industry. We continue the tradition with Huebsch Over-dry Prevention Technology (OPT).

KNOWING IS BETTER THAN GUESSING.

Huebsch OPT can save you money with every load. Most commercial laundries waste money by over-drying, but our technology eliminates the problem. OPT uses unique lifters with sensors to stop the tumble dryer exactly when your linens are dry — and not a second later. The sensors have continual contact with the linens and precisely measure the moisture level in the load. They send nonstop signals to the rotary switch, located behind the cylinder, which communicates the moisture level to the Galaxy™ 400 control. When the pre-set moisture level is reached, the control stops the cycle. No more guessing when your linens are ready. No more over-drying. The result is improved linen quality, increased energy efficiency and maximized utility savings.

HUEBSCH OPT DELIVERS:

- Reduced utility costs
- Minimized linen replacement costs
- Maintenance-free dependability

SUCCESS STORY THE PROOF IS IN THE UTILITY SAVINGS.

Using energy-saving OPT technology, an athletic department facility manager at a school in the University of Wisconsin system was able to decrease drying time of team uniforms by up to 48 minutes per load. This translated to approximately **\$3,993 IN YEARLY UTILITY COST SAVINGS.***

UNPARALLELED EFFICIENCY.

- Automatic stop function activates when the ideal dryness level is reached
- Rotary transfer switch senses dryness levels thousands of times per second
- Sensors feature up to 267 times more surface area for ultimate accuracy
- Customizable dryness level settings provide optimum results
- Consistent drying leads to extended linen life

MINIMIZE MAINTENANCE COSTS.

Huebsch® OPT is engineered with a rotary transfer switch that virtually eliminates the need for repairs. Unlike brushes that break down and require routine maintenance, our unique switch can withstand tens of millions of cycles, saving you money on costly repairs.

UPGRADE TO MAXIMUM REVENUE.

If you haven't replaced your old tumble dryers, you haven't maximized your utility and energy savings. Upgrade to Huebsch tumble dryers and save money with every load. Our equipment features the latest technology to help you get laundry done faster. That means you'll use less energy, reduce gas consumption and, in turn, minimize costs. When you combine these machines with Huebsch washer-extractors that also feature Galaxy™ 400 controls, you can easily maximize the performance of your entire laundry facility – saving you even more money.

WHY WORK WITH HUEBSCH:

- Commercial-grade quality and reliability
- Long-lasting performance
- Unmatched service and support from our laundry distribution experts

* Alliance Laundry Systems University (ALSU)

** Assumes over-drying of 10 loads per day in a 75 lb tumble dryer, 7 days per week, 6 minutes over-dry per load and a national average of \$1.10 per therm.

*** \$662/\$1.10, +00000

REDUCE GAS CONSUMPTION
\$662 PER YEAR UTILITY SAVINGS**

LOWER ENERGY USE
60,181,818 BTUS SAVED PER YEAR***

DECREASE
ENVIRONMENTAL IMPACT

By reducing energy and gas consumption while lessening the need for linen replacement, OPT uses fewer resources to provide a more **ECO-FRIENDLY SOLUTION.**

31% LESS FIBER LOSS

Over-drying results in fiber loss and decreased life of the fabric. Huebsch OPT maintains the quality of your linens so you don't have to replace them as often, **REDUCING YOUR LINEN REPLACEMENT COSTS.**
